Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws, which are statements that involve substantial risks and uncertainties. Forward-looking statements generally relate to future events or our future financial or operating performance. In some cases, you can identify forward-looking statements because they contain words such as “may,” “will,” “shall,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements in this release include, but are not limited to, guidance on financial results for the first quarter and full year of 2022; statements about future operating results and our long term growth; the momentum of our business; the growth rates in the markets in which we compete; the impact of the COVID-19 pandemic on consumer behavior and our business; our investments in technology and infrastructure; our ability to successfully integrate and realize the benefits of our past or future strategic acquisitions or investments; the success of our RaaS® model and the timing and plans for future RaaS® clients; and our ability to attract new Active Buyers.

The forward-looking statements contained in this release are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission (“SEC”), including, but not limited to, risks detailed in our upcoming Annual Report on Form 10-K for the year ended December 31, 2021. The forward-looking statements in this release are based on information available to us as of the date hereof, and we disclaim any obligation to update any forward-looking statements, except as required by law. These forward-looking statements should not be relied upon as representing thredUP’s views as of any date subsequent to the date of this press release.

Additional information regarding these and other factors that could affect thredUP’s results is included in thredUP’s SEC filings, which may be obtained by visiting our Investor Relations website at ir.thredup.com or the SEC’s website at www.sec.gov.

Operating Metrics

An Active Buyer is a thredUP buyer who has made at least one purchase in the last twelve months. A thredUP buyer is a customer who has created an account in our marketplace. A thredUP buyer is identified by a unique email address and a single person could have multiple thredUP accounts and count as multiple Active Buyers.

Orders are defined as the total number of orders placed by buyers across our marketplace, including through our RaaS® partners, in a given period, net of cancellations.

Non-GAAP Financial Measures

This press release and the accompanying tables contain non-GAAP financial measures: Adjusted EBITDA and Adjusted EBITDA margin. In addition to our results determined in accordance with GAAP, we believe that Adjusted EBITDA and Adjusted EBITDA margin, non-GAAP measures, are useful in evaluating our operating performance. We use Adjusted EBITDA and Adjusted EBITDA margin to evaluate and assess our operating performance and the operating leverage in our business, and for internal planning and forecasting purposes. We believe that Adjusted EBITDA and Adjusted EBITDA margin, when taken collectively with our GAAP results, may be helpful to investors because it provides consistency and comparability with past financial performance and assists in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results. Adjusted EBITDA and Adjusted EBITDA margin is presented for supplemental informational purposes only, should not be considered a substitute for financial information presented in accordance with GAAP and may be different from a similarly-titled non-GAAP measure used by other companies.

A reconciliation is provided below for Adjusted EBITDA to net loss, the most directly comparable financial measure stated in accordance with GAAP. We calculate Adjusted EBITDA as net loss adjusted to exclude, where applicable in a given period, depreciation and amortization, stock-based compensation expense, acquisition, offering and other expenses, interest expense, change in fair value of convertible preferred stock warrant liability and provision for income taxes.

Investors are encouraged to review our results determined in accordance with GAAP and the reconciliation of Adjusted EBITDA to net loss. thredUP is not providing a quantitative reconciliation of forward-looking guidance of Adjusted EBITDA to net loss because certain items are out of thredUP’s control or cannot be reasonably predicted. Historically, these items have included, but are not limited to, depreciation and amortization, stock-based compensation expense, change in fair value of convertible preferred stock warrant liability and provision for income taxes. Accordingly, a reconciliation for Adjusted EBITDA in order to calculate forward-looking Adjusted EBITDA margin is not available without unreasonable effort. However, for the first quarter of 2022 and full year 2022, depreciation and amortization is expected to be $2.9 million and $15.5 million, respectively. In addition, for the first quarter of 2022 and full year 2022, stock-based compensation expense is expected to be $4.0 million and $17.9 million, respectively. These items are uncertain, depend on various factors, and could result in projected net loss being materially less than is indicated by the currently estimated Adjusted EBITDA margin.
